SPECIAL EVENTS SATURDAY, SUNDAY AT COUNTY FAIR

JUNIOR CHAMBERS TO CONVENE; WASHINGTON TOWNSHIP DAY IS SET

Despite the turmoil of the country and the many counter-attractions, the County of Alameda is proceeding with plans for the annual Alameda County Fair, which opens on July 3 at Pleasanton, one of the historic and charming rural communities of this County. The Fair will continue for more than a week, offering a program as never before presented in the County, according to Supervisor George P. Hellwig, who is taking a personal interest in the colossal exposition.

Every section of Alameda County will have a prominent part in the Fair, states Supervisor Hellwig. The several cities and towns from the Bay area will have special days and many prominent dignitaries will be in attendance from day to day.

Saturday, July 5, all day and evening has been set as Junior Chamber of Commerce Day, according to Daniel K. Beswick, vice president of district 3. Junior Chamber members and their wives (or girl friends) are invited to enjoy the special cocktail party following the afternoon's horse races, followed by a barbecue at \$1.25 per person, then an evening of amusement on the fair grounds.

Sunday, July 6 has been designated as Washington Township Day. It will open with a big parade at 11 o'clock in the morning, a western program beginning at 2:30 in the afternoon, and an open air vaudeville show by professional talent in the evening, according to Ernest W. Schween, secretary of the fair board.

Families of Washington Township are invited to come for the day and evening and enjoy themselves.

CREDIT GROUP HEARS NEW PLAN

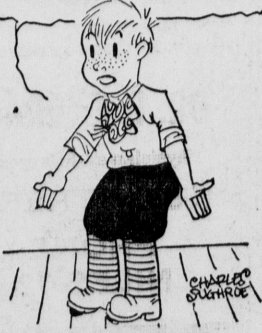

CENTERVILLE — The eight directors of the proposed Township Credit Bureau met here last Friday night with only Tony Amaral of Decoto absent, who was out of town.

They heard a presentation by a member of the Oakland Credit association who offered to organize and manage an office here and the group now awaits a written outline of the proposal from the Oakland man. The \$5 charter membership fee may be done away with, though, under the Oakland plan dues will be \$2 per month per member. The board will next meet upon call of acting chairman Dr. T. C. Wilson.

FIGHT PICTURES

Red hot ring-side pictures of the championship Billy Conn vs. Joe Louis battle will be shown at the evening performances this Friday and Saturday at the Niles Theatre, Manager Bill Helm announces. The pictures will show the highlights, some in slow motion of the great 13-round fist-cuff classic.

U. S. O. FUND TO PROVIDE PLACES FOR SOLDIER FUN

A nationwide picture of small towns and cities engulfed by tidal waves of soldiers and sailors on leave from nearby posts appears in the reports of government morale officials and welfare agency field men.

The summary is that tonight and every night tens of thousands of service men will have nothing to do, no place to find beneficial diversion from military routine. Many of them, the reports point out, will return to duty depressed and disgruntled, instead of cheerful and refreshed.

The number of points where troops are now training in America is an official secret, but "several hundred" is an admittedly conservative estimate. Scores of populous training centers are fringed by small communities.

Vallejo has no swimming pool, no beaches, no parks for the 4,000 daily visitors from nearby Mare Island Navy Yard. The local "Y" and other existing agencies can care for a maximum of 1,800 men.

A number of communities, like Cheyenne, Wyo., have established their own recreation centers, but lack funds for ample, balanced recreation and social program. More than 700 soldiers jam a floor of 60 by 60 feet, the largest space available for the weekly dance Cheyenne gives for service men.

Operation of more than 360 large service clubs is the solution proposed. The clubs will offer recreation, social activities and personal counsel. They will be located near army and navy bases, for the exclusive use of men in uniform.

Thomas E. Dewey, District Attorney of New York County, heads the national campaign for the \$10,765,000 required to staff and maintain the clubhouses for one year. The government will build them. The drive in Washington Township is now under way with committees working in Niles, Centerville, Newark and elsewhere. Have you bought your button yet?

NEWARK DEPOT FIRE-SETTER IS ADJUDGED INSANE

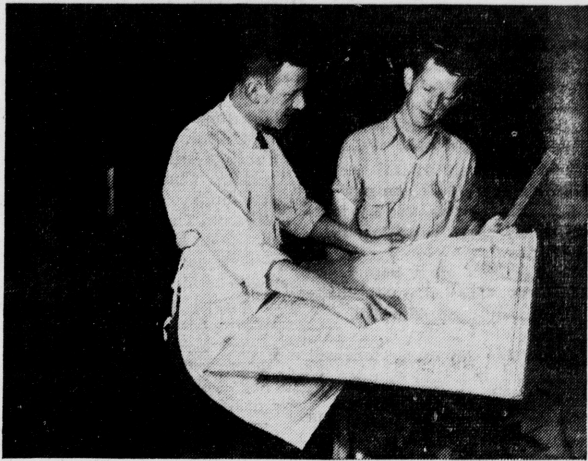

OAKLAND — Superior Judge Leon E. Gray on Thursday of last week committed James Paul Jones, 25, alleged to have started the \$20,000 fire which destroyed the Southern Pacific Depot in Newark on May 15, to the Mendocino State Hospital at Ukiah. The commitment order removes the charge of arson which was placed against him.

The judge held his hearing at Highland Hospital where Jones is still recovering from major burns received when he locked himself in the blazing warehouse. His father testified that his son was absent without leave from the Mississippi State hospital at the time of the Newark fire, where he had been previously committed.

GRASS FIRE QUELLED; ROCKS IMPEDE TRAFFIC

The Niles Volunteer and the Alameda County fire crews were called out Sunday to control a grass fire which burned about four acres in the narrowest part of Niles Canyon. With the quelling of the blaze rocks whose supporting grass and shrubs had been burned away, began falling on the highway, resulting in snarling the usual heavy traffic.

Highway patrolmen established a one-way "control" for traffic until the rocks and boulders were later removed.

FREE PICNIC TO BE HELD NEAR NILES ON JUNE 29

The annual big picnic of the employees of the Pacific States Steel corporation, local No. 591 will be held at Stonybrook Park near Niles Canyon on Sunday, June 29, according to Joe Franko.

CHRISTIAN SCIENCE CHURCHES

"Is the Universe, including Man, Evolved by Atomic Force?" was the subject of the Lesson-Sermon Sunday, June 22, in all Churches of Christ Scientists, branches of The Mother Church, The First Church of Christ, Scientist, in Boston Mass.

The Golden Text was: "The Lord is a great God, and a great King above all gods. In his hand are the deep places of the earth. the strength of the hills is his also" (Ps. 95: 3, 4). Other Bible citations included. And in the synagogue there was a man, which had a spirit of an unclean devil, and cried out with a loud voice, . . . And Jesus rebuked him, saying, Hold thy peace, and come out of him. And when the devil had thrown him in the midst, he came out of him, and hurt him not" (Luke 4:33,35).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Science not only reveals the origin of all diseases as mental, but it also declares that all disease is cured by divine Mind. . . As mortal mind should be taught to do the body no harm and to uproot its false showing" (pp. 169, 180).

Mr. and Mrs. A. J. Petsche returned to their Niles home Sunday afternoon following a week spent in the mountains near Livermore.

DECOTO GROUP ENJOYS HILARIOUS SOCIAL EVENING

DECOTO — The Decoto Social Group met last Saturday evening at the Walker sunroom for their regular monthly gathering. A hilarious program had been arranged, an outstanding number of which was a hat show. The hats were modeled by May Rowlett. They were trimmed with egg shells, hot dogs, paper milk bottles and safety pins. Cigarettes, beer cans, cloth rabbits ect, according to what occasion they were intended for. The show was applauded by gales of laughter throughout. Aquadrille was danced in dog patch style. The ladies wearing sun bonnets and aprons with their print dresses and the men were decorated with chin whiskers and straw hats. Each dancer had a cob pipe, which though not in working order, added immensely to the general effect. Two violin solos by Mr. Kenneth Snethen were much enjoyed.

At a later hour, refreshments consisting of roast pork sandwiches, potato chips, olives and coffee were served by the men. This went over in a big way and Mr. Walter Walker, as chef and his assistants were given an ovation by the lucky ladies.

Mr. and Mrs. Kenneth Snethen and Mr. and Mrs. Robert Campbell were guests.

ARE YOUR ELECTRIC APPLIANCES DOPEY AND UNDERNOURISHED?

Look at what happens when you put too many appliances to work on a wiring circuit. The toaster or other appliances are dopey or slow in action. Bread for example gets toasted in eight minutes instead of five or six. That means appliances are not getting the full voltage and slow down when circuits are overloaded.

When a qualified electric contractor for a home he is thinking of your convenient and economic use of electricity now and in the future. Good adequate "skippy" or cheap wiring and it soon pays for itself many times over.

NATIVE SONS
STILL UNDEFEATED
IN SOFTBALL LEAGUE

By: "Scoop" Pashote

The Native Sons softball team added two more wins to their column to boost their margin to eight straight games with no losses in the Washington Township Softball league. Their star pitcher, Tony Ornellas of Newark pitched a no run-no hit game last Thursday evening against the County Employees. Ornellas allowed only two men to reach first base by the issuance of two free passes. Telles of Occidental also pitched a no run-no hit game.

According to rumors around Washington Township, Native Sons are going to be the club to defend their championship title once again. They won their first championship in the league in 1939 with the same manager in charge, Kenneth Ferry. The Sons have shown the softball fans up to date that they have the best hitting and fielding club in the league, beside team spirit among the players.

The biggest upset of last week came in the second game Tuesday evening when Central Chevrolet won their second league game by defeating a first division team, Silver Dollar, by a score of 13 to 2.

— No Games Next Week

There will be no softball games played at the high school next week on account of the July 4 holidays, but play will resume Monday evening, July 7 when Central Chevrolet meets Co. Employees in the first game, and Decoto Booster's vs. Kraftile in the second game.

Results of last weeks games follow: Monday evening: W. O. W. 11, Wedgewood 7; Native Sons 6, Occidental 1. The Woodmen in the first game came from behind to defeat Wedgewood.

Tuesday evening: Co. Employees 6, K. of C. 3; Central Chevrolet 13, Silver Dollar 2 in the second game Silver Dollar, a first division team, was playing air-tight ball with Chevrolet but during the latter part of the game Pinto was touched for ten runs in one inning. Peter Rivers was relief pitcher for Silver Dollar.

Wednesday evening: Occidental 10, Kraftile 7; Westvaco 22, Decoto Booster's 1. In the first game until the sixth inning Kraftile was leading Occidental 6 to 2, but Occidental went on a hitting spree in the sixth and seventh innings to win the game.

— Thursdays games

Thursday evening: Silver Dollar 2, W. O. W. 0; Native Sons 15, Co. Employees 0. In the first game Pinto for the winners allowed W. O. W. 3 hits and no runs. Mannix, losing pitcher, also pitched a fair game but despite errors in the clutch and no hitting power by W. O. W. Silver Dollar was able to win 2 to 0. This game was played in 45 minutes, one of the fastest and best games played this season.

Friday evening: K. of C. 14, Decoto Boosters 6; Wedgewood 9, Central Chevrolet 2. The second game was forfeited as the Wedgewood Club was unable to put ten regular players on the field at 9 p.m.

Manuel Santos hit a home run for the losers in the first game Friday evening with two men on base to account for three of Decoto's six runs. The first game was called at the end of the fifth inning, because of the time limit.

RAILWAY
LABOR UNION DEMANDS
WOULD COST
900 Million Dollars
A YEAR

THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year—although their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent—averaging 47 per cent—and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

WAYNE BASKET MANUFACTURING CO.

The Wayne Basket mfg Co., located at 484 Horning avenue San Jose, phone Ballard 5682, one of the leading industrial enterprises, manufactures paper and veneer berry baskets that are unsurpassed in quality beauty and durability. They have spent years in research, designing, developing and improving these materials to their present high state of perfection.

The fact that their products are widely used is a very important factor in the prosperity of this region. When we realize that the major portion of what we pay for every product we buy goes back to the region in which it was manufactured, we must have local industries to return this money into circulation.

In this review of the Business Leaders of San Jose, we are more than proud to have such a progressive firm as the Wayne Basket manufacturing company located here and wish them many years of continued growth and progress. —adv.

MAKING THE FLEAS BITE THEIR OWN DOGS!

After nearly two decades of near-pusillanimous
patience with imposters our Uncle Sam is finally rol-
ling up his sleeves and spitting on his hands.

Coupled with last week's edicts to close all nazi
consulates except in Washington, and freezing ALL
European funds, our valiant "Unc" has ordered:

1. Closing of all borders to passage of the 330,000
unwanted non-American Germans in our midst:

2. Orders to consuls in Europe to issue no visas to
Europeans-with-families to enter this country, thus
by infiltration to take the place of the banished nazis,
and, through pressure on their families in nazi-domi-
nated Europe, to become fresh espionage agents in this
country.

So be, and it is all to the good. This page has been
preaching for months that the only way to beat the
nazis is to out-nazi them: out-guess, out-plot, out-
plan, out-smart them. Now Uncle Sam is starting to
do it. This is still God's Country and our motto is
still "In God We Trust." There is an old Yankee
homily which runs: "to teach to a dog you must know
more than the dog." You may draw your own infer-
ence, q. e. d.

More than 50,000 persons in California received
bone fractures in motor smashups last year proving
there are large numbers of persons with strange ideas
about giving the other fellow a "break."

DIPLOMACY IS BECOMING AN ATTENUATED APPENDAGE.

With the signing of a ten-year agreement of some
sort with the nazis last week, Turkey passed out of the
picture, either as a possible battle-ground, or as an al-
ly of England. Smart turks!

But they dont, and haven't helped England, with
whom she had and has, a supposedly working agree-
ment to assist England should fighting break out in the
Mediterranean. Does seem fighting has been going on
all around the "Mare Nostrum" for months: all the
way from Gibraltar to Tripoli and Alexandria, but the
Turks have done nothing to help.

But then: our own Colonel Donovan also sold
Yugoslavia short when he promised American help
if the Slavs would resist the nazi yoke. So the Slavs re-
sisted. . . for two short hours. There was not a field
radio to direct the two million men under arms. It
would be funny if it wasn't so sad, — and stupid.

So "Peter paid Paul" — or was it Paul paid
Peter?

Diplomacy is becoming a useless and outmoded
adjunct of government. All the diplomats can do is
"pave the way with good intentions"; — it's the sol-
diers who do the fighting, and God who gives (or den-
ies) the victory.

We seem to be approaching the welcome era of
time where diplomacy is going by the boards. It is
what the President, and the Congress, and this invis-
ible person dubbed "Uncle Sam" do, which count.
Meantime, our Ship of State has a good sound "Hull",
(not original), for which we should be duly thankful!

"Fifty million Frenchmen cant be wrong" ran a
popular song after the last war. But they were and
are, or rather: they are being kicked around like
people without a country — and that's one of the super-
sad spectacles of this present world travail.

Dont forget: Lafayette helped us win our inde-
pendence from Mother England, whom we are now
siding. And dont forget that heroic saint, Joan of Arc.
If she has died in vain, then Our Lord must have died
in vain, too . . . but we dont believe He did.

These be parlous times, when anything ca happen
—and something surely will! — and our prayers as
good Americans, should be with our President and the
Congress who together ferret out our course, hour by
hour and day by day, through the troubled, Godless
waters of this year of our Lord, 1941.

OBTUSE. . . !

Adolph Hitler had a heck of a time last week get-
ting it throught his head that he and his'n had out-
worn their welcome in these United States. Of course
Berlin worded a strong protest: among other things
the flow of military facts to Germany freely pub-
lished every day in our newspapers, magazines and
newsreels, will be somewhat arrested.

If there are 2,000 officials and employees in the 28
nazi consular offices ordered closed, there will be just
2,000 less enemies working in our midst.

It would have been swell if Cordell Hull could
have said: Adolph, we dont like you, we dont like
what you're doing, and we dont like your boys who are
taking advantage of our hospitality. So we're send-
ing your boys home. We're not afraid of you or your
bad boys, and if it's war you want, come and get it!"

Anyhow, Uncle Sam's unwonted velvet glove is
slipping off, and little by little glimpses are showing
of the mailed fist.

CONQUERORS MUST DIE

It is well to remember, perhaps, in this grim era
of the swastika, that there have been other Hitlers,
in other days — whose far-flung empires have fallen
apart, and whose names are now simply something to
trouble the students of history. Conquerors must die,
but love of liberty never dies. That is the lesson one
can learn from history. Napoleon died, a prisoner on
St. Helena, at 52. That, incidentally, is Hitler's age
right now. Alexander died before he was 34. Julius
Caesar died at 56; Genghis Khan at 65. Each in his
day, rattled his sword and dreamed of world conquest.
Each, except for Genghis Khan, died comparatively
young. And their worlds refused to stay conquered.
If there was freedom of the press in Nazi Germany,
which of course there isn't, we would append the note:
"Berlin papers please copy!"

GOVERNOR OLSON TIED UP IN HIS OWN PRIZE PACKAGE. . .

And did Governor Olson tie himself into a knot by
his adamant refusal to sign any compromise-SRA bill?
He was going to have the SRA continued just as it
was, (even though relief clients are falling away rap-
idly); so that his henchmen could hang onto their jobs
at Sacramento.

So both houses of the Legislature just adjourned
sine die, put on their hats and went home, without ap-
propriating a PENNY for the continuance of SRA.

Two days later 2,200 SRA office employees were
advised their jobs would expire on July 1. . . And all
because the governor was going to do things HIS way,
in defiance of our duly elected senate and assembly.

So park the blame for the mess right on the lap of
the governor who started it. How is he going to finish
it?

"EXEMPLEUM GRATIAE" — (Free example.)

And dont forget: the Boche have been working at
utmost capacity for the past four or five years, pre-
paring for this second unwarranted war. (What ails
the Teutonic blood anyhow, that they have to keep
making war?).

We, the U. S. A. at the end of but our first year of
effort have more than tied the best nutzi-nazi achieve-
ment. In less than another year (if they last that
long!) we will have them gaping, with their tongues
hanging out. . . so far as industrial achievement goes.

This is the country which invented the steam engine
the first steamboat, the cotton gin, the airplane, the
telephone the telegraph, ("What hath God
wrought?") the sewing machine, etc. etc. But we did
NOT invent the printing press; nor gun-powder: the
Chinese did that.

Natural resources coupled with Yankee ingenuity
and inventiveness, plus the genius of organization,
(not the C. I. O. kind) will whip the world — if that is
the job cut out for us.

After all, Germany has been under a h— of a
strain since Adolph first seized the Ruhr and first
started re-arming. She only has so many men, only
so much productive capacity, and only so much diabol-
ical cunning . . . and she has been badly drained. She has
no money, no credit, little food less raw materials.

We are just getting into our stride, — you "aint
seen nuttin' yet", — and when we all really start pul-
ling together we will go places, and do things which
will make paranorae Adolph turn green with envy.

Keep your faith in God and your eye on Uncle
Sam!

LIFE ON SPANISH MAIN FEATURED AT ICE FOLLIES

Life on the Spanish Main with 16 pretty little pirates, old chests full of human gems, and featuring the great Canadian skating pair, Colson and Claudet, make up a brilliant production number, "Pirate Gold," in the new Ice Follies of 1941 now appearing nightly at Winterland, in San Francisco.

Making ice-show history, Ice Follies offers for the first time a group of "Pirate Girls" on a skating surface in the best Ziegfeld or George White manner. Eight Ice Follies ballerinas wear tremendous glorified costumes representing precious stones and metals as the treasure in this private number. Specially designed these costumes, some of them 12 to 14 feet in diameter, were made at an average cost of \$1,000 each.

Representing diamonds, amethysts, rubies, sapphires, pearls, emeralds, silver and gold, they are the gems which are presented by Osborne Colson, the bold buccaner, to his lady, Fran Claudet. Decorated with thousands of glittering gems, the parade costumes make a spectacular entrance in the pirate episode.

Another innovation in this number is the original music written especially for the episode by the two Hollywood composers, Stanley Cowan and Bobby Worth. To the catchy tune of "Pretty Little Pirate," the group of 16 girls, dressed in various pirate garb, present a dashing routine which introduces the team of Colson and Claudet.

Seen for the first time as a pair in Ice Follies of 1940, Colson and Claudet, two of the outstanding pair skaters on the North American continent, offer an entirely new routine of pure figure skating. As a high, in a show that is filled with thrilling high points, Miss Claudet and Mr. Colson present to perfection the well-known technique of the sport of figure skating. Both of them have held major championships in Canada, and have the happy faculty of translating skill to terms of the show world.

BIG COUNTY FAIR PREENED TO OPEN THURSDAY, JULY 3

TWO PRETENTIOUS NIGHT
 HORSE SHOWS, "NAME BAND"
 ENTERTAINMENT PLANNED

PLEASANTON — With opening day, July 3 only a little more than two weeks away, Alameda County's big annual County Fair today was virtually ready for the mammoth ten day "show" which is to be staged this year.

A tabloid resume of the major details which will go toward making up this year's fair includes the following:

There will be eight running races for thoroughbreds and two heats of harness racing each day. Approximately \$26,000 will be distributed in purses. Applications for stable room for more than 500 horses already have been received.

This year's fair will include a mammoth Fourth of July racing program — including a tremendous fireworks display and a special entertainment program at night. There also will be two big Saturdays on this year's fair schedule, which extends from July 3 to 12.

Fair patrons will see the historic 84-year old Pleasanton track in startling and pleasing new garb. Almost \$500,000 worth of improvements have been added since last year. These include a new \$100,000 grandstand that can accommodate 10,000 people; a \$10,000 livestock exhibit pavilion; a new racing secretary's office and jockey "club house"; a new half-mile track for harness horses and an almost completely rebuilt mile racing strip — widened and sharply banked on the turns — for the running thoroughbreds.

Livestock, agricultural, horticultural, home economics and other colorful fair exhibits will be by far the most pretentious yet attempted on the Alameda County Fair association's new grounds. A total of \$10,000 in prizes will be distributed among exhibitors.

In addition to horse racing, livestock and agricultural exhibits and scores of other entertainment features that will mark the day-time program, this year's Alameda County Fair is to include night entertainment of a calibre never attempted before. "Big Name"

bands, "Big Time" vaudeville acts, carnivals, street dancing and other fun-making specialties are to be a part of the "Big Show Every Night" program.

Four of the biggest and most famous racing stables in California are sending horses to Pleasanton this year — Charles S. Howard, famous as the owner of Seabiscuit — William E. Boeing nationally known airplane manufacturer — Errol MacBoyle, California gold mining magnate and Norman W. Church, veteran Santa Clara horse breeder and racing stable owner.

The admission price to this year's fair has been cut in half — to 25 cents, with children under 12 years who are accompanied by parents, admitted free.

Two night horse shows which will probably measure up as among the biggest and most successful to be held anywhere in California during 1941 are to be held on Friday and Saturday nights, July 11 and 12. Entries already have been received from the biggest and most famous show horse stables on the Pacific Coast.

She was the wife of George W. Robinson, former proprietor of a garage here and the mother of George A. Robinson of Oakland. She was the sister of Mrs. Marie C. Heinsen of Lockwood, Mrs. Blanche Place of San Francisco and Mrs. Elsie Drake of Oakland.
